

Christ the Cornerstone Academy

Christ the Cornerstone Academy is an elementary school for children of the grade levels Preschool through fifth grade. It is a Lutheran school where kids can learn about God and his teachings. As an alumnus, I always question myself "Why is CTCA the best?" Is it the teachers? Education? Children? But then I realize every summer that the reason why I'm continually drawn to the school is the love you get from every one of the teachers and staff. They always welcome you with a big smile and hug. Due to the small number of children at this school, they treat all of their students like their own child. If it weren't for the wonderful teachers at this school, many of these kids would not be able to know about God's love like they do today. The teachers tell Bible stories, put on shows based on parables, and have their classes read stories from the Bible. Because of all the wonderful love and education I get here, I come back every summer because I just can't get enough of the love that I am given here.

Another thing why CTCA is the best school in Mira Mesa is the education. The things I have been taught have helped me tremendously in middle school. Because CTCA teaches almost a full grade level ahead in their education, 6th grade in a new middle school was very easy for me. It just felt like a review of the things that I learned at CTCA. The teachers explain the lessons thoroughly so the students can fully comprehend the subjects. I felt that the teachers at CTCA put me on a good track to middle school education. It has helped me become the person I am today. Those are all the reasons why Christ the Cornerstone Academy is the best, loving, and Christ filled school.
